DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, a computer system for generating full-wave rectification waveform data synchronized with said AC power-supply waveform on the basis of said digital signal, a D/A converter receiving as a reference voltage a voltage error signal based on a voltage error between a predetermined set voltage and an output voltage of said A/D converter unit, for multiplying together said reference voltage and said full-wave rectification waveform data to output a target current value waveform similar to the waveform of an input voltage in said A/D converter unit, and a current control portion for comparing said target current value waveform and a waveform of a current flowing in said A/D converter unit and controlling said current flowing in said A/D converter unit to reduce a current error between the two.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. J. Han whose telephone number is 571-272-2078. The examiner can normally be reached on Mon-Fri 5:30am-2:00pm.
